IIE at a Glance

The Institute of International Education is among the world's largest and most experienced international exchange organizations. An independent non-profit established in 1919, IIE is dedicated to increasing the capacity of people to think and work on a global basis. The Institute's vision of "Opening Minds to the World" is based upon the belief that international educational exchange forms the strongest basis for fostering the mutual understanding necessary for worldwide peace and progress.

IIE implements more than 250 international exchange programs benefiting over 20,000 men and women from 175 countries. Foremost is the world-renowned Fulbright Program, which IIE has administered on behalf of the U.S. Department of State since the program's inception in 1946. The Institute also serves corporations, foundations and government agencies worldwide, making available testing and advising services, scholarships, information on opportunities for international study, and emergency assistance to students and scholars.

IENetwork members are the first to hear of new developments in IIE's many programs, IIE partner organization updates, and newly released research publications.
